THINKBIGACADEMICS SOCIAL BRANDING TEMPLATE

Ken BIG Blake

BLAKE INVESTMENT GROUP - BIG LLC

This simple document is used to Help you with setting up your brand on **Social Media Networks**. From an SEO standpoint when searched, in the beginning you will place closer to the front pages.

The first page of the social branding sheet is an example page for your review. We recommend you using at least five of the most prominent networks to date.

This information is placed in a **specific order** that makes the most sense as we have found from testing hundreds of entrepreneurs & small businesses. The *first three* are **most important**.

The last page is used for notes and any social networks you can think of past and present that may aid in reaching potential clients.

We look forward to assisting you with your goals of entrepreneurship, growing a small business or maximizing your reach with an established entity.

If you have found this information to be helpful stop by my personal website and leave me a testimonial of how it worked for you.
